

OFFICE FURNITURE ACCESSORIES / DESK POWER / B2B SUPPLY

PRODUCT FAMILY OVERVIEW

A buyer-ready introduction to Sooye Studio's sourcing scope before the complete SKU catalog is released.

INTERIM BUYER EDITION / NOT A COMPLETE SKU CATALOG

A FOCUSED B2B SOURCING IDENTITY

Office furniture accessories and desk power, organized for clearer buying decisions.

Sooye Studio is a Guangdong, China B2B sourcing brand for buyers evaluating desk power, furniture hardware and related workspace accessories. We move from product-family scope to an exact-model inquiry instead of publishing unsupported SKU claims.

-
- | | | |
|----|-----------------|--|
| 01 | SCOPE | Desk power, furniture hardware and practical office accessory families for importers, distributors, furniture makers and project buyers. |
| 02 | METHOD | Start with application and target market. Shortlist the product family. Confirm the exact model, sample scope and required evidence. |
| 03 | STANDARD | Product, certification and factory information is treated as verified only after it is mapped to supporting evidence and the relevant model. |
-

BUYER FIT

BUILT FOR BUYERS WHO NEED A CLEARER START.

-
- | | | |
|----|-------------------------------------|---|
| 01 | IMPORTERS & DISTRIBUTORS | Build or extend a product line without treating a family page as a final SKU specification. |
|----|-------------------------------------|---|
-
- | | | |
|----|--------------------------------|---|
| 02 | FURNITURE MANUFACTURERS | Match power access, handles and mounting hardware to the furniture application and drawing. |
|----|--------------------------------|---|
-
- | | | |
|----|-------------------------------------|--|
| 03 | FIT-OUT & PROJECT BUYERS | Define installation context, target market and documentation needs before quotation. |
|----|-------------------------------------|--|
-
- | | | |
|----|----------------------------------|---|
| 04 | WHOLESALEERS & BRANDS | Discuss packaging, private-label direction, samples and exact-model evidence after shortlist. |
|----|----------------------------------|---|
-
- | | | |
|----|--------------------------|--|
| 05 | PROCUREMENT TEAMS | Use a structured RFQ so technical, commercial and verification questions stay connected. |
|----|--------------------------|--|

Exact models, dimensions, documents and order terms are confirmed after the product family is shortlisted.

ILLUSTRATIVE SOURCING SCENE / SAMPLE SCOPE IS CONFIRMED AFTER MODEL SHORTLIST

A PRACTICAL SEQUENCE

SAMPLE-FIRST SOURCING PROCESS

- 01 SEND THE CONTEXT**

Product family, application, target market, quantity range and reference image or drawing.
- 02 SHORTLIST A MODEL**

Align the likely configuration and identify which questions still require exact-model confirmation.
- 03 CONFIRM SAMPLE SCOPE**

Agree which product, finish, packaging or documentation items the sample is intended to evaluate.
- 04 REVIEW BEFORE SCALE**

Use written specifications, relevant evidence and agreed order terms before a larger purchasing decision.

BEFORE ORDERING

WHAT BUYERS SHOULD CONFIRM

The right checklist changes by product family. These six questions create a safer starting point without pretending the website is a final specification.

01	APPLICATION	Where will the product be installed and what must it work with?
02	TARGET MARKET	Which market, plug or electrical context and document set are relevant?
03	EXACT CONFIGURATION	Dimensions, cutout, ports, material, finish, mounting and cable details.
04	SAMPLE PURPOSE	What will the buyer inspect, test, compare or approve?
05	PACKAGING & BRAND	Retail, project, bulk or private-label expectations to discuss after shortlist.
06	WRITTEN ORDER TERMS	Price, MOQ, lead time, warranty and other commercial terms belong in the exact quotation or agreement.

CERTIFICATION AND FACTORY INFORMATION IS REVIEWED AGAINST SUPPORTING EVIDENCE BEFORE PUBLICATION.

STRUCTURED RFQ / BUYER INQUIRY

A SHORT INQUIRY IS ENOUGH TO BEGIN.

Only your email and a brief description are required on the website. Product, market, quantity, sample and company details can be added when already known.

REQUIRED

Email + what you need

Example: desk power modules for a distributor catalog; please send available options and sample information.

OPTIONAL SOURCING DETAILS

Product family
Target market
Quantity range

Sample need
Company name
Reference image or drawing

Contact preference
Documentation question
Other project notes
